

17th November 2023

Good afternoon Stanley Families

Please see below information, advice and guidance for you and your children. Thank you for taking the time to read this bulletin.

If you would like to request anything related to this bulletin, please contact the school on the enquiries email. enquiries@stanleyhigh.co.uk.

I hope you all have a lovely weekend.

Mrs J Shawe
Headteacher

Book Buzz – Mr Walker

This year, we took part in BookTrust's Bookbuzz programme. BookTrust, is the UK's largest children's reading charity that transforms lives by getting children and families reading. Bookbuzz has enabled all our Year 7 & 8 students to have the exciting opportunity to choose a book out of sixteen different titles - to keep, for free! The books are carefully selected by a panel of experts to ensure quality, suitability and to inspire the love of reading. Additionally, we hope this will encourage the students to read more frequently, which will help improve their well-being and spark interesting conversations and inspire creativity.

The books have now arrived, and we have had some really excited students! Your child may have already shown you their new book, if not, you may want to ask them about it to start the conversation about reading. If your child is yet to receive their book, please do not worry, they will be receiving it soon.

Additionally, all the Year 7 & 8 students will be given a project to complete about their chosen book - this will be to write a book review. They will have four weeks to complete this, although we don't expect all students to have finished their book in four weeks, but it would be fantastic if they did! We would just like them to review what they have managed to read so far. We are really looking forward to reading some of their reviews, and there will be prizes for the best ones!

If you wish to find out more about BookBuzz, or find resources to support with reading, you can visit booktrust.org.uk.

17th November 2023

Well-being Calendar for November – Miss Peacock

New Ways November 2023

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY	SATURDAY	SUNDAY
8	1	1 Make a list of new things you want to do this month	2 Respond to a difficult situation in a different way	3 Get outside and observe the changes in nature around you	4 Sign up to join a new course, activity or online community	5 Change your normal routine today and notice how you feel
6 Try out a new way of being physically active	7 Be creative. Cook, draw, write, paint, make or inspire	8 Plan a new activity or idea you want to try out this week	9 When you feel you can't do something, add the word "yet"	10 Be curious. Learn about a new topic or an inspiring idea	11 Choose a different route and see what you notice on the way	12 Find out something new about someone you care about
13 Do something playful outdoors - walk, run, explore, relax	14 Find a new way to help or support a cause you care about	15 Build on new ideas by thinking "Yes, and what if..."	16 Look at life through someone else's eyes and see their perspective	17 Try a new way to practice self-care and be kind to yourself	18 Connect with someone from a different generation	19 Broaden your perspective: read a different paper, magazine or site
20 Make a meal using a recipe or ingredient you've not tried before	21 Learn a new skill from a friend or share one of yours with them	22 Find a new way to tell someone you appreciate them	23 Set aside a regular time to pursue an activity you love	24 Share with a friend something helpful you learned recently	25 Use one of your strengths in a new or creative way	26 Try out a different radio station or new TV show
27 Join a friend doing their hobby and find out why they love it	28 Discover your artistic side. Design a friendly greeting card	29 Enjoy new music today. Play, sing, dance or listen	30 Look for new reasons to be hopeful, even in tough times			

ACTION FOR HAPPINESS **Happier · Kinder · Together**

Parent/Carer Consultation Evening dates

Please make a note of the following dates for your children's year. School will **close at 2pm** on these dates to allow parents/carers to attend from 3pm to 6.30pm.

Year 7 Thursday 30th November 2023

Year 9 Thursday 1st February 2024

Year 11 Thursday 14th March 2024

Year 10 Thursday 2nd May 2024

Upcoming Dates and Events

Please make a note of the following dates, for your information.

November

Thursday 23rd Year 11 Leavers Celebration Evening 6pm

Thursday 30th Year 7 Parent/Carer Evening 3pm (2pm finish)

December

Wednesday 6th SEND Together Trust Coffee Morning 10am-12noon

Friday 8th INSET Day

17th November 2023

Attendance

We have a target of 95% attendance and work hard every day to beat this. The whole school attendance for week ending 3rd November 2023 was 91%.

Did you know that if your attendance is 90%, this is equivalent to 1 full day off school every two weeks and if your attendance is 95% this is equivalent to half a day off school every two weeks?

Congratulations to 7EWA, 9HW and 8JB for achieving the highest attendance last week.

Since September, the Department for Education has issued guidance for all schools in "Working Together to Improve Attendance". This guidance forms the basis of our updated Attendance Policy - which you can find on our website at the following link.

<https://stanleyhigh.co.uk/wp-content/uploads/2022/11/Attendance-Policy-September-2022.pdf>

Maths – Mrs Knox

Problem of the week

Mrs. Knox's problem of the week:

A cake costs twice as much as a
drink.

The total cost of a cake and a drink
is £6

How much does a cake cost?

(Hint: try to draw a bar model to help with this problem!)

Homework Club

Our school homework club is open to all years and is held in the library every day after school from 3pm - 4pm. Students will have access to laptops should they wish to use them and there will be support from learning support staff during this time. We welcome all students to attend whether it be to complete homework, to revise for assessments, or take the opportunity to access our library for the simple pleasure of reading.

We understand homework can be tricky for some students to navigate so please know that we are here to support where needed.

17th November 2023

Extra-Curricular Clubs

What Parents & Carers Need to Know about SMART TVs

Smart TVs connect to the internet without the need for a set-top box or streaming device, letting users access a range of features through the TV set itself: from on-demand content apps like BBC iPlayer to streaming services such as Netflix, as well as connecting to smartphones and other wireless devices. Most new televisions are internet enabled – so whether you're thinking of upgrading your home viewing system or buying an additional TV for your child's room, it's now even more important to consider the online safety aspects.

WHAT ARE THE RISKS?

AGE-INAPPROPRIATE CONTENT

From Netflix to Disney+ to Prime Video, there is a plethora of streaming services available. While these services offer content catering for younger viewers, they also provide material for more mature audiences. If you don't have parental controls set up on your accounts, your child could find themselves being exposed to shows and movies with adult themes, strong language and violence.

UNCONVINCING SECURITY

As Internet of Things (IoT) devices, smart TVs can be uniquely vulnerable to attack. Experts warn that internet-enabled TVs tend not to support high-level security software, so you won't always be able to download strong antivirus programmes like you would on a phone or computer. Being targeted by hackers could be deeply upsetting for your child, as well as putting their personal data at risk.

INCREASED SCREEN TIME

The array of content available through smart TVs could lead to your child spending excessive amounts of time in front of the screen. Not only can prolonged screen time distract from important activities such as schoolwork or exercise, but experts have also warned that endless hours in front of the box can lead to health problems including obesity, poor sleeping patterns and depression.

A SILENT SPY?

Some smart TVs already collect data on users' viewing habits and then display targeted advertising based on that personal information – while there have also been reports of internet-enabled TVs (and the apps installed on them) being used to 'snooper' on owners. In models with a built-in microphone (for voice activation), third parties could potentially listen in on someone's home life.

REMOTE-CONTROL RETAIL

Like many online devices, smart TVs facilitate digital purchases: buying a new app or the latest season of a favourite show, for example. If your child has access to a bank card and isn't restricted by spending controls on the system, they could run up a sizeable bill through a smart TV fairly quickly – especially if they're not quite old enough to fully appreciate the value of money.

CONTACT FROM STRANGERS

Many smart TVs can be used for web browsing, social media and live streaming – all of which could allow unknown users to contact your child (or vice versa). If your child engages with these functions of the TV, a stranger could potentially discover their contact information and potentially then use it to obtain even more sensitive personal details, such as your home address.

Advice for Parents & Carers

MAKE IT A FAMILY THING

Family TV time is a great way to model the responsible enjoyment of technology – showing your child how to use the smart TV safely for when they're old enough to watch it independently. You could also take this opportunity to establish some healthy TV boundaries, such as time limits on their daily viewing or how to make sure they're only watching content that's appropriate for their age.

CREATE CHILD PROFILES

Much like with smartphones and tablets, apps can be downloaded onto smart TVs: from free content platforms such as BBC iPlayer to paid-for services like Prime Video. Most of these apps allow you to create a separate account for your child which has different settings to your own – suggesting more child-friendly material and reducing the possibility of them viewing explicit content.

SET UP PARENTAL CONTROLS

It's likely that your smart TV has built-in parental controls, which not only let you filter out age-inappropriate shows, movies and games but can also restrict in-app purchasing, so your child can't accidentally spend money through the device. When you've enabled these safeguards, have an open conversation with your child about the reasons, helping them to understand the potential risks.

CONSIDER THE LOCATION

If you're concerned about the online safety hazards that a smart TV might pose to your child, you could consider where in your home you put the device. The safest option would be to place the smart TV in a shared family space – so that an adult is usually nearby and able to supervise while your child's watching it – rather than in the relative privacy of a bedroom.

What Parents & Carers Need to Know about X

AGE RESTRICTION
13+

X

In October 2022, the enormously popular social media network Twitter was purchased by tech tycoon Elon Musk. That sparked a host of changes to the platform – not all which have been received positively by its fans. The alterations have continued with each passing month, many of them raising online safety concerns among the 530 million users of Twitter (now rebranded as simply X). With further adjustments reportedly in the pipeline, X has attracted more than its usual share of controversy and caution in recent times.

WHAT ARE THE RISKS?

A BLOCK ON BLOCKING

X has announced plans to remove its blocking feature. Previously, this stopped other users from viewing your profile or sending you direct messages, while also hiding their posts from your feed. Only this latter function will now remain. The decision has been criticised by some members, who feel that blocking (in its current form) protects them from X users who promote denial and hatred.

AGE-INAPPROPRIATE CONTENT

Many of X's less age-appropriate posts can feature anything from extreme political views to pornography. While accounts marked as 18+ are restricted from non-members, it's still fairly easy to stumble across this material. accidentally. X's new 'For You' page also shows content from accounts that a user doesn't already follow – meaning that almost anything could end up on a child's feed.

LIMITED REPORTING FEATURES

X offers a premium membership, with some functionality (such as controlling who can view and reply to your posts) increasingly being made exclusive to those who pay the subscription fee. Several commentators have speculated that X could one day become an exclusively paid-for service, with access to accounts being revoked for anyone unwilling or unable to take out a subscription.

VERIFICATION FOR SALE

Historically, Twitter's moderators granted account verification: certifying someone as authentic by placing a blue tick next to their username. One of X's earliest changes was to place verification behind a paywall; this caused the number of celebrity impersonators to rise and left no way to distinguish, say, a legitimate influencer from a copycat fake account seeking to exploit other users.

Advice for Parents & Carers

PROTECT PRIVACY

Unsavory characters may try to gain access to a young person's X account – either to view their posts and gather information on them, or to completely take control of it. To minimise risk, ensure the account has a strong password and enable the 'Protect Your Posts' feature (via the account settings), so that strangers can't view your child's posts without first being approved as a follower.

DON'T RISE TO THE BAIT

To gain more views and followers, some X users post deliberately inflammatory comments on sensitive topics such as race, sexual orientation and gender issues. Many young people could find this upsetting. Emphasise that, if your child encounters someone spreading hate on X, it's best not to give that person what they want: an argument. Ignore them, mute their account and move on.

STAY ALERT FOR IMPOSTERS

Make sure your child understands that X's blue ticks no longer guarantee the identity of anyone on the platform. While it might be exciting if a celebrity liked your child's post, it could just as easily be an imposter with malicious intentions. If your child's not 100% sure that an X user actually is who they claim to be, advise them to err on the side of caution and avoid interacting with that account.

ONLY FOLLOW TRUSTED ACCOUNTS

Using the 'Following' tab on X helps to ensure that the only content your child sees has come from accounts they've chosen to follow; this should reduce the chance of them inadvertently being exposed to harmful, violent or explicit content. Show your child how to report another user's account if, say, they're behaving inappropriately by spreading misinformation or offensive opinions.

BE READY TO TAKE ACTION

If your child suffers harassment on the platform or becomes the target of a hack, you could consider deactivating their account entirely. Recently, X's safety features have been criticised for allegedly failing to protect users' wellbeing – so if your child is being subjected to abusive messages or similar mistreatment on the platform, it might be prudent to remove them from X altogether.

17th November 2023

What Parents & Carers Need to Know about **FIVE NIGHTS AT FREDDY'S**

WHAT ARE THE RISKS?

Five Nights at Freddy's is a series of indie point-and-click horror games whose word-of-mouth success and widespread spin-off content on YouTube have helped each of the nine instalments so far to sell almost five million copies on Steam (the PC gaming platform) alone. Set in various deserted locations at night, with creepy animatronic characters suddenly coming to life, the games are rated PEGI 12 for disturbing/violent content, mild profanity and horror themes.

FRIGHTENING THEMES

Five Nights at Freddy's (FNaF for short) doesn't feature bloodshed like many horror games – but it does build tension and use jump scares, which may be too intense for young players. The sinister animatronic characters and the sensation of being trapped and defenceless could be particularly unsettling, as could the inclusion of disturbing elements such as murder or possession by evil spirits.

STRESSFUL SITUATIONS

Due to FNaF's suspenseful atmosphere, it can be extremely stressful for players. Constantly checking that one's surroundings are safe is a crucial part of the gameplay and could create residual stress or even obsessive-compulsive behaviours. Several media reports have suggested that some younger children have experienced severe nightmares or sleep anxiety after playing games from the series.

IN-GAME SPENDING

FNaF doesn't foreground in-game purchasing as strongly as many other well-known games, but some titles in the series do offer additional content that promises to enhance the experience. Five Nights at Freddy's: Help Wanted, for instance, is complemented by a Halloween-themed expansion pack called 'Curse of Dreadbear' (costing £8.99), which unlocks new levels and mini-games.

AGE-INAPPROPRIATE CONTENT

As a result of FNaF's popularity, a sizeable YouTube community based on fan-made content has developed around the game. While the majority of this material is still child friendly, there are a number of channels which are geared more towards mature audiences: they contain adult and disturbing themes, for example, and (in some cases) age-inappropriate language.

PLAYING IN ISOLATION

Many parents will be relieved to learn that Five Nights at Freddy's is a single-player game which doesn't include any online chat functionality. Conversely, however, this could also make playing FNaF quite an isolating experience – especially if your child is spending a lot of time investigating the game's spooky, shadowy environments alone in their room, for example.

Advice for Parents & Carers

USE PARENTAL CONTROLS

Five Nights at Freddy's doesn't have conventional parental controls. However, if you're concerned about the potential impacts of the game's themes and content, you can simply choose not to let your child play it. If they use an Android or iOS device for gaming, you can adjust Apple and Google's built-in parental controls to restrict your child's access to certain content.

SPOT THE SIGNS

If you're concerned that your child might be spending too much time on Five Nights at Freddy's, or you're worried that the game's scary themes are taking a toll, watch out for warning signs. Young people may start to prioritise gaming over everyday essentials like schoolwork or sleep; irritability or a lack of concentration could also indicate that their gaming sessions are going on too long.

TRY IT YOURSELF

Every child is different, of course, so it could be worth playing Five Nights at Freddy's yourself for a while to gauge how your young gamer might cope with the series' more frightening and disturbing aspects. If they're old enough, you could spend some time playing it together – after all, it usually only takes between two and ten minutes to complete a level.

TALK ABOUT THE RISKS

Before you allow your child to play Five Nights at Freddy's, it's wise to have a conversation about the game so that they're aware of the potential risks. Ensure that your child understands that the series is purposely designed to be tense and unsettling, and that they should stop or take a break if the intensity of the gameplay is making them feel uncomfortable or putting them on edge.

LIMIT SPENDING

Unlike many popular titles, Five Nights at Freddy's doesn't bombard players with tempting in-game purchase offers. It's worth noting, however, that some instalments in the series do provide the option for players to spend real-world money. With that in mind, it's important to either keep a close eye on your child's expenditure or limit their access to digital payment options.

What Parents & Carers Need to Know about MICROTRANSACTIONS

Microtransactions (often abbreviated as "MTX") are digital purchases made within an app or game to unlock extra features or additional content such as new levels. A popular sub-set of these are loot boxes, which contain a selection (usually random) of virtual items: from character skins to game-changing equipment like better weapons. Microtransactions (and loot boxes in particular) are now widespread in apps and games, but concerns persist that they normalise gambling and can foster addictive behaviours – especially among younger players.

WHAT ARE THE RISKS?

Microtransactions have been criticised for promoting gambling-adjacent behaviour in children. Research has also suggested that exposure to the loot box system could affect the likelihood of a young person suffering gambling harms later in life; children who purchased or used loot boxes in the last 12 months were found to be more likely to have gambled during the same period, as well.

GATEWAY TO GAMBLING?

Microtransactions (and loot boxes especially) could lead to young people displaying compulsive behaviours. Loot boxes are designed to be addictive, and the sought-after prizes they contain are dispensed at random. This means that young gamers might not get what they want straight away, causing them to spend more money as well as additional time gaming.

ADDICTIVE NATURE

Microtransactions (and loot boxes especially) could lead to young people displaying compulsive behaviours. Loot boxes are designed to be addictive, and the sought-after prizes they contain are dispensed at random. This means that young gamers might not get what they want straight away, causing them to spend more money as well as additional time gaming.

PAYING TO WIN

In many popular games (the FIFA series being a notable example), microtransactions make it far easier to succeed – which is a concern because children can often find it difficult to keep track of their spending. Once a child starts making in-game purchases, they may continue buying to keep up with their friends and other players – sometimes without recognising the mounting real-world cost.

DATA COLLECTION

To allow a young person to complete microtransactions, many app and game developers collect personal data such as their name, address, email, geolocation information, photos, payment details and so on. Even if this data remains secure (which is by no means guaranteed), there's always the chance that it will be used – and possibly sold on to third parties – for marketing purposes.

AFFECTING DAILY ROUTINE

Online games tend to revolve around repeated loops of activity that can affect purchasing decisions and potentially influence children's spending patterns. This could lead to your child not only handing over more money but also adjusting their daily routine to match the game's schedule – potentially impacting more important elements of their day, such as homework and family time.

SATELLITE SPENDING

If you've linked a payment method like a debit card or a PayPal account to your child's game or app, it's wise to keep a close eye on their microtransactions to ensure they aren't racking up a large bill. Letting a child have access to your card (if they're still too young to have their own) or other means of payment could also lead to them spending beyond the apps and games they normally use.

Advice for Parents & Carers

DO YOUR RESEARCH

It's important to have a serviceable idea of whether the games your child plays use the loot box system (even if it goes by a different name) or include the option of buying items, equipment and so forth. If so, it's crucial to help your child understand that this costs actual money, and that they shouldn't feel pressured into making any purchases.

CHAT ABOUT 'CHANCE'

It may help to explain to your child that many microtransactions involve an element of chance: they could pay money and still not get what they want in return. Emphasise that – while not usually costing much individually – these in-app and in-game purchases can soon add up. Talk to your child about how spending their money in a game or app means they have less to use in the real world.

(GIFT) CARDS ON THE TABLE

Investing in an in-game currency gift card can be a useful way of helping your child get to grips with budgeting. If you buy, say, a £10 V-bucks Fortnite gift card, monitor how long it takes them to spend it. When they come to you asking for more, you could make it the starting point for a conversation about how quickly that money went and how they could earn their next gift card.

STOP SPENDING AT SOURCE

You might decide that the wisest strategy is to remove the potential for spending money on microtransactions. If so, most games, apps and devices have options in their settings to help you manage what your child can spend – or to disable that function altogether, preventing them from buying additional items for their games or boosted functionality for certain apps.

WATCH FOR THE SIGNS

If you're worried that your child's passion for a particular game or app may tempt them into habitual spending on microtransactions, it's important to remember the indicators of addictive behaviour. Irritability, a lack of concentration and prioritising recreational screen time ahead of homework or mealtimes could all be signs that you need to have a conversation about a more balanced routine.

Set Up Safe Checklist

internet matters.org

Set your child up for online safety with these simple tasks

Manage broadband & mobile networks

At home, access your broadband network and set applicable controls.

On the go, set up controls on the relevant mobile network.

See step-by-step guides to help

Prepare their device

Explore the device controls and settings to set limits on inappropriate content, screen time, spending and more.

Download and install the apps and games you're okay with your child using.

Set up controls in these apps and games to help keep your child safe while they play, browse or chat.

Install or set up additional parental control apps for further protection.

Explore step-by-step guides for social media and video gaming

Talk & learn regularly

Together, learn about online safety issues that might impact your child.

Together, explore privacy and safety settings on their favourite platforms.

Ask them to teach you about their favourite online platforms to create an open environment for conversation.

Keep these conversations going for continuous support.

17th November 2023

Together Trust Coffee Morning

Theme: Coping with Christmas

**DATE: WEDNESDAY
6TH DECEMBER 2023
10AM - 12 NOON**

- Come and enjoy coffee and refreshments
- Chance to meet others
- Opportunities to ask questions to professionals
- Professional in social communication and ASD presenting

Autism Friendly Christmas Tips
Christmas is different to other times of the year – it can be loud, intense, bright, unpredictable & busy.

<p>LIGHTS Get lights that have controls to adjust the brightness and the flashing function</p>		<p>UNPREDICTABILITY Prepare a person for what's happening around the Christmas period, e.g. social stories, timetables, who will be visiting/what time is dinner</p>
<p>TAKE A BREAK Christmas day can be intense...ensure there are opportunities for breaks, quiet space & keep headphones handy</p>		<p>EATING A person's idea of Christmas dinner may not be the same as the traditional meal...pizza or pasta is cool to eat too!</p>
<p>PRESENTS Not everyone likes presents, not everyone likes opening presents in front of others, not everyone likes the surprise of a wrapped gift</p>		<p>HAVING FUN Create games that includes everyone...change the rules if you need to so that everyone can play</p>

VISITS
Unannounced visits are unpredictable... let the person know that someone is calling

Gheel
www.gheel.org.uk

We look forward to seeing you there.
Open to families, extended families and those who support our students.

Online help and advice

If you have any worries or concerns regarding a child while school is closed please take a look at how you can report something that doesn't fit right with you [Worried about a child \(sefton.gov.uk\)](https://www.sefton.gov.uk).

Kooth is an online mental well-being website. 0203 984 9337 www.kooth.com

Childline is a free, private, and confidential service that you can access online and on the phone. They can provide help and support for people up to their 19th birthday. 0800 1111 www.childline.org.uk

Samaritans is where you can access confidential emotional support at any time by calling 116 123 or emailing jo@samaritans.org www.samaritans.org

Shout is a 24/7 text service, free on all major mobile networks, for anyone in crisis anytime, anywhere. It's a place to go if you're struggling to cope and you need immediate help. Text 85258. www.crisistextline.uk

Police If you or somebody else is in danger, or it feels like a situation might get dangerous and you need support right away, click here to find out how to contact the police. www.police.uk

NHS Choices Mental health services are free on the NHS.

To get urgent medical help, use the NHS 111 online service, or call 111 if you're unable to get help online. For life-threatening emergencies, call 999 for an ambulance. www.nhs.uk

Report abuse CEOP help children stay safe online. If anybody acts inappropriately towards you or another child or young person online (such as sexual chat or being asked to do something that makes you feel uncomfortable); you can report it here. www.ceop.police.uk/safety-centre

Bullybusters is an anti-bullying initiative for children and young people. 0800 169 6928 www.bullybusters.org.uk

Parenting 2000 provides therapy, clinical help, and rehabilitation services. 01704 380047 www.parenting2000.org.uk

The Universal Services Guide

Sefton have created a guide detailing information for children aged 0-25 and their families who want to find out about support services available to them. This includes information about health professionals for all ages, leisure services, inclusive activities, and lots more.

https://www.seftondirectory.com/kb5/sefton/directory/advice.page?id=GK_tnRp_Tc

If you are worried about a child, please contact the Police in an emergency or to make a referral to Children's Social Care please follow this link <https://tinyurl.com/yywyg3or>

For non-emergencies, call [111](tel:111) or the MASH Team on [0151 934 4013](tel:01519344013).

SEND Support

Please follow the link below to see what support is on offer to families in the community of children who may have additional needs or struggles. There are sessions on sleep management, sensory workshops, eating etc. so help is available in so many ways.
